INTRODUCTION

This report summarizes the responses of the State University of New York constituent institutions to the biannual survey of Non-Credit Instructional Activities for July 1, 1990 through December 31, 1990.

Non-credit instructional activities at SUNY institutions has steadily increased over the period of survey administration, particularly at the community college level. One explanation for the expansion is the availability of state funds to encourage community colleges to conduct training for local businesses and industries. As a result, new training relationships between colleges and industries have emerged that account for much of the increased non-credit instruction and registrations at the institution level. In addition, Cornell Cooperative Extension has expanded its statewide data collection efforts for the reporting of non-credit activities and registrations and their current figures include only activites directly involving an extension agent.

Non-credit instruction has become increasingly important to adults at transition points in their lives. Adults considering a career change or career advancement or those seeking personal growth and development are either turning or returning to higher education in greater numbers. SUNY institutions have responded to this growing demand for adult education with an incredible array of non-credit instructional activities.

EXAMPLES OF SUNY NON-CREDIT INSTRUCTIONAL ACTIVITIES

Some examples of the non-credit activities offered at SUNY campuses are presented below. This listing is by no means comprehensive considering that the number of non-credit instructional activities offered in the last six month period was over 15,000 with registrations exceeding one-half million. However, the activities listed below indicate the expanding diversity of courses, seminars, conferences that SUNY institutions provide for professional and business groups as well as for the community in general. The non-credit activities titles presented below are organized by some of the major purposes that adults turn and return to higher education i.e., career changes, inservice education, personal growth and leisure and retraining of job skills.

A few examples of non-credit instructional activities for adults considering career changes include: Introduction to Advertising, Careers in Broadcasting, The Changing Work-Force, Careers in Management, Careers in Technology, Choices and Changes for Women, How to Start a Mail-Order Business, Identifying Employers/Job Openings, Plan Your Career, Resume Clinic, Start and Finance a Computer Enterprise, Successful Self-Employment, Today's FBI and You, Vocational Transitioning, etc.

Examples of the variety of non-credit activities offered by SUNY colleges and universities for in-service education include: Economics Education Workshop for

Teachers, Forest Resources Systems Institute, Graphic Presentations, Intensive Review for Family Physicians, Modern Radiographic Techniques, Nursing State Board Review, Professional Engineer Refresher, Project Management, Public Speaking, Running an Effective Meeting, Skull Base Surgery Symposium, Telemarketing Techniques, Writing Workshop for Business Professionals, etc.

Demand for instructional activities to enhance personal growth, development and leisure-time has lead to the following variety of non-credit offerings by SUNY institutions: Beginning Sailing, Cabinet Making, Current Issues, Exploration in Classical Music, Folk Dancing, Fitness of Men & Women, Handling Anger & Depression, Irish Language, Microwave Cooking, Home Refrigeration/Air Conditioning Repair, Self-Defense, Self-Help for Smokers, Television Repair, Understanding Opera, Wilderness Camping in Winter, World Religions, etc.

The retraining and upgrading of job skills brought about by recent technological developments in computer hardware and software is another major reason for the increased adult registrations in non-credit instruction. Examples of non-credit computer courses recently offered at SUNY campuses include: Introduction to the Many Uses of the PC, Integrated Software Applications, Beginning, Intermediate & Advanced Lotus 1-2-3, Wordstar, Intro. to 8808 Assembly Language, Hard Disk Management, How to Use Micros, Computer-Assisted Drafting, Computerized School Transportation, Microcomputer Applications, Microcomputer Graphic Arts, etc.

DEFINITION OF NON-CREDIT INSTRUCTIONAL ACTIVITIES

Non-credit instructional activity is not susceptible to sharp delineation, consequently there was a good deal of local judgment regarding the non-credit activities reported on the survey. For the purpose of this survey, the following guidelines were used in determining the activities to be reported:

> All formally organized and scheduled non-credit activities which are instructional in nature and which require registration of the participants, were included. These activities characteristically exhibit a wide range of formats, e.g., courses, workshops, seminars, conferences, institutes, etc. These activities are typically organized and administered by offices of continuing education, community service, adult education, innovative studies and extension services, however, they may be organized and administered by any other division, school, or academic department of the institution. Some campuses want to include basic literary skills centers, tutorials and developmental programs in their non-credit totals. These non-credit basic skills activities can be included if they are part of a prescribed program for a student, require more than a student initiated sign-in registration and have procedures to eliminate duplicated headcount.

DEFINITION OF NON-CREDIT INSTRUCTIONAL ACTIVITIES (CONTINUED)

Excluded were all activities which can be credited toward a degree or other formal award granted by the institution. In addition, all activities which were primarily non-instructional in nature were excluded, such as great artists series, mass media programs, lecture series, travel groups, etc. Excluded were basic skills centers or labs, tutorials and developmental programs with student initiated participation, student sign-in procedure for registration and that did not have provisions for eliminating duplicated headcount. Auditors of credit courses were also excluded.

NON-CREDIT DATA COLLECTED

For each non-credit instructional activity reported on the survey, the following information was provided by the campuses: contact hours, continuing education value, course location, instruction type, instructor type, number of registrations, organizing unit, revenue source, subject area and target clientele. Definitions of these terms can be found on page xiv.

NON-CREDIT COURSE SYSTEM

Data submitted by the campuses provide a comprehensive source of information about the State University of New York's non-credit instructional activities. Information on these offerings is available to the campuses from the Non-Credit Course System (NCC), which generates a total of twenty-one different reports. The types of reports produced and their corresponding report number are described below. In addition, a summary chart of the available non-credit reports can be found beginning on page xv.

NON-CREDIT COURSE SYSTEM
STATE UNIVERSITY OF NEW YORK

Non-Credit Course (NCC) reports 1 through 6 are summary reports of the number of non-credit activities and registrations by six categories: subject area, target clientele, organizing unit, instructional type, faculty status and funding source. These reports are available university-wide and by individual campus.

3.	Registrations and Activities by Organizing Unit
4.	Registrations and Activities by Type of Activity
5.	Registrations and Activities by Faculty Status
6.	Registrations and Activities by Funding Source

NCC reports 7 through 12 are campus detail reports. Each non-credit activity reported is listed in alphabetical order by campus under the organizing category for that report (i.e. Report 7 - Subject Area, Report 8 - Target Clientele, etc.). Information printed for each activity includes: number of registrations, contact hours, continuing education units (CEU), target clientele, organizing unit, faculty status, funding source and location (on or off campus). These reports are currently available by campus only.

Since NCC reports 14, 15, 16 limit data reporting to only four successive terms, they were replaced by trend tables which allow additional trend reporting. The OIR trend tables summarize the number of non-credit activities and registrations for the State University of New York from 1983 through 1990.

NCC reports 17 through 20 are system detail reports. Each non-credit instructional activity is listed in alphabetical order under the organizing category for that report, (i.e. Report 17 - Subject Area, Report 18 - Target Clientele, etc.) information printed for each activity includes: campus, number of registrations, target clientele, contact hours, activity type, continuing education units, organizing unit, faculty status, funding source and location (on or off campus).
